Chapter 1: Handmade vs. Mass-Produced Wigs

Not all wigs are created equal.

Here's what you need to know:

Mass-Produced Wigs:

**Often made
by machine**

**Can look
bulky or
unnatural**

**May pull or
irritate your
scalp**

**Shorter
lifespan
(weeks or
months)**

Handmade Braided Wigs (like ours):

**Crafted by
skilled braiders,
strand by
strand**

**Natural-looking
and lightweight**

**Gentle on your
scalp**

**Lasts 2–5 years
with proper
care**

Chapter 2: Choosing the Right Wig for YOU

Face Shape Match:

Round face? Try layered or center-part styles.

Oval face? Almost any style works beautifully.

Heart-shaped? Side parts and volume on the sides are perfect.

Budget Tip: Start with a versatile everyday style, then add specialty looks later. Our wigs are built to last!

Busy mom or professional? Go for low-maintenance, ready-to-wear wigs.

Creative or fashion-forward? Explore bold colors and unique braid patterns.

BRAIDED WIGS
